

Our FRL range includes combination units with 1/4" and 1/2" inlet ports. Adding a PCL Air Treatment unit into an air line efficiently filters to 10 microns. Products feature polycarbonate bowls, allowing the user to easily monitor the element's condition and the collected liquid's level. The bowl is surrounded with protective metal as a safety measure to protect the user in case of excessive pressures, temperatures, or aggressive chemicals.

### **FILTER-REGULATOR & LUBRICATOR**

PCL's FRL Units are designed to control output air pressure, eliminate moisture and contaminants from the air flow, and to lubricate tools during use.

#### **Features**

- Selectable manual/semi-automatic drain
- Polycarbonate bowl
- Locking device
- 10 micron filter
- Complete with wall bracket and pressure gauge

Part Number	Port Size (in)	Adjustment	Max.Inlet Pressure	Flow@6 bar
ATCFRL12	1/2 mm	0-12 bar/170psi	16 bar	5,000 l/min
